

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

JANUARY 7, 2014

North East Trees (NET) desires a license from the County to develop and construct tot lots at Castaic Sports Complex, located at 31230 Castaic Rd, Castaic, California 91384, and Jackie Robinson Park, located at 8773 E. Avenue R, Littlerock, California 93543, solely using grant funds NET received from First 5 LA. The donated value of tot lot design and construction by NET at Castaic Sports Complex and Jackie Robinson Park is estimated at \$388,000 and \$132,000 respectively. Tot Lots are small playgrounds designed especially for young children up to five years of age. NET is a non-profit organization whose mission is to restore nature's services in resource-challenged communities, through a collaborative resource development, implementation and stewardship process. The license would authorize tot lot construction, define the role and obligations of NET and the Los Angeles County Department of Parks and Recreation (Department), and enable the Director of the Department to accept the donated value of the improvements on behalf of the County.

I, THEREFORE, MOVE that the Board of Supervisors delegate authority to the Director of the Los Angeles County Department of Parks and Recreation (Director) to enter into a license agreement with North East Trees (NET), upon approval as to form by County Counsel, that defines the roles and responsibilities of NET and the Department with respect to tot lot development at Castaic Sports Complex and Jackie Robinson Park, and enables the improvements to be accepted by the Director on behalf of the County as construction is completed at each park by NET in a manner satisfactory to the Director at an estimated donated value to the County of \$388,000 at Castaic Sports Complex and \$132,000 at Jackie Robinson Park.
